

The Mobile Sales Tool Consumer (MSTC) Release on March 14<sup>th</sup> implements the following improvements:

## Sale Pending

### Sale Pending in MSTC

If a vehicle is **both** Promoted **and** marked as Sale Pending in DD365, then the vehicle will display online with 'Sale Pending' banners in the Vehicle Listing Page (VLP) and Vehicle Detail Page (VDP).

A customer is invited to contact a dealer by submitting a lead in several places on the VDP.

'Contact Dealer' next to the sale pending banner will product a Contact Dealer lead form on the selected VIN.

Unlocking a price on a Sale Pending VIN, if applicable, will produce a Vehicle Selling Price lead

'Contact Dealer' button on the right hand side (where Start Purchase would be) will produce a Contact Dealer style lead on the selected VIN

## Vehicle Listing Page

## Contact Dealer Leads – Series

Series will be included in the comments section of Contact Dealer leads submitted from the VLP

### ‘Image Not Available’

Improvements have been made to display friendlier VLP placeholder images when images are not available for a given VIN.

## Vehicle Detail Page

### Stock Number

When available, the stock number of a vehicle is displayed on same row as window sticker.

### ‘Image Not Available’

Improvements have been made to display friendlier placeholder images when images are not available for a given VIN.

### Window Sticker Error Message

Should a user encounter a problem with the window sticker link, a friendly message will appear next to the Sticker link on the VDP inviting the user to try again later.

## Various Changes

### Credit Application – SETF Only

A change has been made to allow dealer specific RouteOne settings to apply to credit application behaviors. MSTC will no longer override settings unintentionally.

## Reminders

### REMINDERS
